

iSisters Technology Mentoring Achieves Accreditation from Imagine Canada's Standard Program

November 25, 2015 – iSisters Technology Mentoring today announces that it has been accredited under Imagine Canada's national [Standards Program](#). With this achievement, we join a growing community of more than 120 organizations dedicated to operational excellence.

The Standards Program is a Canada-wide set of shared standards for charities and non-profits designed to strengthen practices in five fundamental areas: board governance; financial accountability and transparency; fundraising; staff management; and volunteer involvement.

"It's no small feat for an organization to earn Standards Program accreditation," says Bruce MacDonald, President and CEO of Imagine Canada. "It's a rigorous, peer-reviewed process that is meant to build public trust and confidence in the charitable sector. These organizations take accountability and operational transparency very seriously. We're glad to have them on board."

Invest in Trust

The goals of Imagine Canada's Standards Program are to increase the transparency of charities and non-profits, and to strengthen public confidence in individual organizations and the sector as a whole. Trust is the foundation for what matters to us, our stakeholders and those who support us. Accredited organizations invest in what matters. We invest in trust.

Transparent, peer-review process

Our policies and procedures in the five areas of compliance were evaluated by a group of volunteers from the sector, and were found to be compliant with the Standards Program.

"iSisters is thrilled to have our small organization accredited to this exacting national standard. We know the diligence and transparency that compliance signifies will provide added assurance to both our current and future donors and supporters, and assist in furthering our mission to mentor women in need," said Claire Toplis, iSisters Board Chair.

As a leader in technology learning and development, iSisters helps empower women in need to live better lives, create brighter futures and build stronger communities.
